COLLATERAL VALUATIONS

THE FOLLOWING FORMUALS WILL BE USED TO VALUE COLLATERAL PER COMMODITY

MPCI COVEARAGE: (# of Acres) * (Weighted Avg APH) * (% Level of Coverage) * (Government Loan Price)

= Commodity Collateral Value

REVENUE COVERAGE: (# of Acres) * (Weighted Avg APH) * (% Level of Coverage) * (Spring Insurance Price Adjusted for 5 Year Avg of Local Basis for the Commodity) = Commodity Collateral Value

*** Estimates of APH's, Government Loan Prices & Insurance Prices based on previous year values will be used until actual figures are set and Collateral Valuations may be adjusted at that time.***
