

# ATLAS Feature Widgets

## EXAMPLE OF BUTTONS STYLES USED IN FEATURE WIDGETS

## ATLAS FEATURE SECTION - LARGE A

- Built to display a picture, text & button(s)
- Can flip layout for image/text to be on opposite side.
- Best for horizontal orientated photos
- Recommended width of image is image
- Height is dependent on amount of content (text)...the more text, the taller the image will need to be to fill the space.

### Lorem Ipsum Dolor Sit Amet

Sed ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto beatae vitae dicta sunt explicabo. Nemo enim ipsam voluptatem quia voluptas sit aspernatur aut odit aut fugit, sed quia consequuntur magni dolores eos qui ratione voluptatem sequi nesciunt.

Aenean pellentesque venenatis turpis sit amet pretium. Nulla hendrerit ante magna, consectetur venenatis tortor rutrum vel. Etiam venenatis sagittis libero. Quisque arcu lectus, viverra eget gravida eu, consequat vitae neque. Aliquam lacinia lacinia egestas. Curabitur vestibulum est sed libero rutrum auctor.

Button Text

## FEATURE SECTION LARGE A - BG

- Same features as the Large A Below
- Can have a background color (what BG stands for in the name!)
- Background color is predetermined by your site colors (primary & secondary) as well as a variety of generic grey background options.
- Can also do a background image! (see second version below)
- Recommended image width is 640 (same as above)
- Height is dependent on amount of text.

Quisque arcu lectus, viverra eget gravida eu, consequat vitae neque. Aliquam lacinia lacinia egestas. Curabitur vestibulum est sed libero rutrum auctor.

## FEATURE SECTION LARGE B

- This feature widget allows for a more vertical, larger image to be displayed next to text
- layout can be flipped
- option for up to 2 buttons.
- Recommended Image width is 960 pixels for large, 640 for Medium, and 320 for small (you will need 3 different images for this widget)
- Also, photos something specific (like a sign, building, or people) may need special attention. It may take several versions of a cropped photo to get the orientation correct.
- This widget requires a very large, high quality photo. Please make sure you are using either an original photo, or one with larger resolution.
- Height is dependent on amount of text next to it as it will stretch any image as it gets longer.
- We recommend putting the text in first, so you can get a better idea of the height necessary of the photo.

Button Text

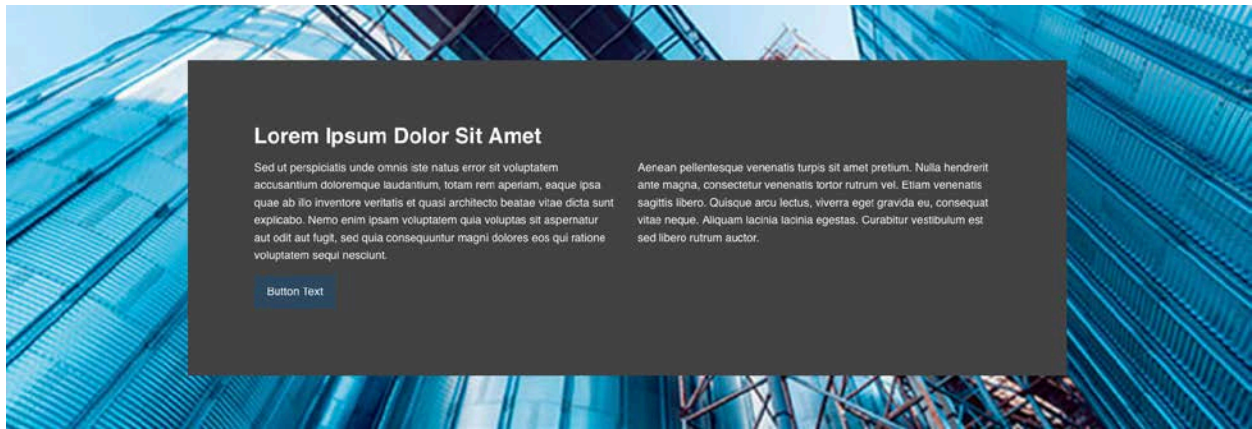

## FEATURE SECTION LARGE B - BG

- Same characteristics as Feature Selection Large B, with the ability to have a background color behind where the text is.
- This feature widget allows for a more vertical, larger image to be displayed next to text
- layout can be flipped
- option for up to 2 buttons.
- Recommended Image width is 960 pixels for large, 640 for Medium, and 320 for small (you will need 3 different images for this widget)
- Height is dependent on amount of text next to it as it will stretch any image as it gets longer.
- We recommend putting the text in first, so you can get a better idea of the height necessary of the photo.
- This widget requires a very large, high quality photo. Please make sure you are using either an original photo, or one with larger resolution.
- Also, photos something specific (like a sign, building, or people) may need special attention. It may take several versions of a cropped photo to get the orientation correct.

## FEATURE SECTION LARGE C

- This Feature widget is creating for displaying a large amount of text. It allows for a title, and 2 columns of text. Photos can also be used in either column.
- A background color to the text can be applied
- A back-ground image to the text & color may also be applied.
- Recommended widths in pixels are Large = 1920, Medium = 1024 and Small = 640
- Like the rest of the feature widget, image height is dependent on amount of content.
- Background image should be something generic--as most of the image will not be visible as it is hidden behind the text & color.

## FEATURE SECTION LARGE D

- Our newest version of the feature widget offers a unique layout of an image partially under the text portion.
- The layout of this widget can be flipped.
- Can feature up to 2 buttons
- Can feature a background color behind the text, and the text & image as well.
- Recommended Image width is 800 pixels for large, 600 for medium and 400 for small.
- Height again is dependent on the amount of text used in this widget
- We suggest placing your text before your crop your images.
- Because of the image being partially behind text, not all images may be suitable, especially those of multiple people, logos/photos with text, and specific buildings.
