

Agribusiness Management

We are currently seeking qualified applicants for the position of Agribusiness Manager at our Walnut, Kansas Facility.

Responsibilities of the job include:

- Manage all functions of the facility to ensure a safe and productive work environment
- Train, develop and support elevator staff
- Drive continuous improvement in all areas of the operation
- Promote sales growth through all facets of the business
- Provide customer service support to both internal and external customers.
- Work closely with company management toward achievement of strategic goals

Qualified applicants will possess the following:

- A strong agricultural background, with prior experience in grain elevator operations and feed mill operations preferred
- An understanding of the livestock feeding needs of producers in the Eastern Kansas Region
- A solid understanding of agronomy services sought by producers in our service region
- A strong work ethic and positive team-work attitude
- Proficient computer skills, including Microsoft office products
- Experience with general business system accounting software
- Excellent communication skills
