

# OnTarget™

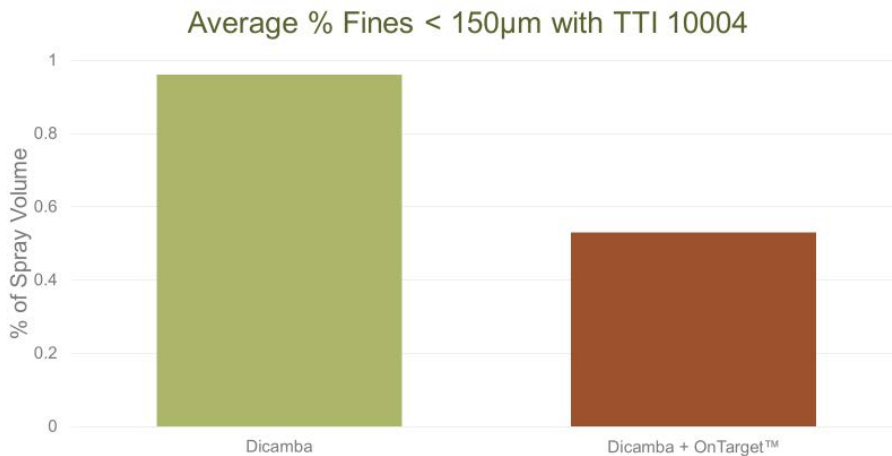

By WINFIELD UNITED

## Drift and deposition aid for new dicamba herbicide technologies.

OnTarget™ adjuvant was specifically designed for ultra and extra coarse nozzles, for use with the new dicamba herbicide chemistries. This adjuvant system has been formulated to reduce driftable fines with dicamba and improves the efficacy of dicamba herbicides by enhancing droplet spreading and canopy penetration.

### FEATURES AND BENEFITS

- Enhances drift control for increased on-target application.
- Aids in droplet spreading for better coverage and herbicide uptake to contribute to the efficacy improvement of the herbicide.
- Anti-foam formulation for added convenience.
